

# KICKSTART YOUR LESSONS

BY NEWLINE EMEA

## TOOLS FOR TEACHERS

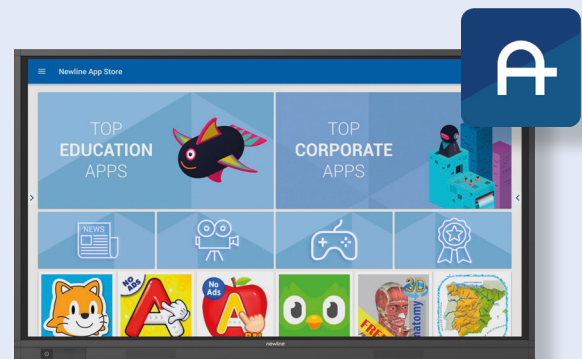

We understand that as a teacher you need to be free to orchestrate your lesson to your preference. Newline provides non-proprietary software and tools which provide that freedom. The Newline App Store and Classroom Tools are specific tools for teachers that are pre-installed on all Newline interactive displays, ready to use!

## NEWLINE CLASSROOM TOOLS

Newline Classroom Tools is a selection of frequently used tools by teachers, like a timer and traffic light, to help keep your lessons streamlined. This widget works as an overlay when opened. You can minimize the widget, navigate between any screen and open the tools menu when you need it throughout the day.

### READY, SET, GO!

The timer is our #1 requested tool. To use for tests and other classroom activities. Or for the other way around, use the stopwatch!

## NEWLINE APP STORE

Our curated app store features a wide and ever-expanding range of tools for education. Get started today with apps that can help make teaching, collaborating and creating learning materials faster, more fun, and more efficient. All apps are tested for full compatibility with Newline interactive displays.

Support learning for any age group and work together with colleagues using our verified apps, such as the Microsoft Office Applications.

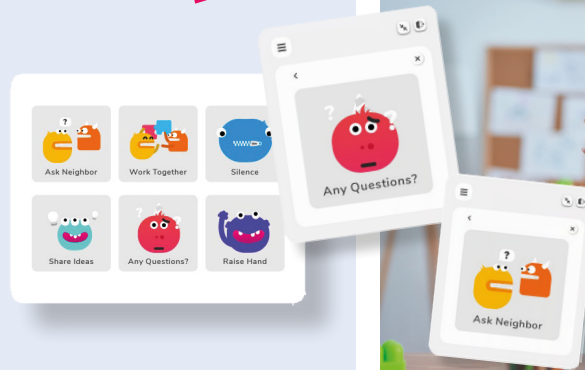

### HELP US HELP YOU!!

We regularly add apps to the Newline App Store. Have a favourite app you want us to test, verify, and add? Let us know via our website.

## INSTRUCTIONS

This fun series of signs can be used to inform your students on how they need to complete their work. In silence, together or allowed to ask their neighbour etc. Clear and easy signs for super streamlined lessons!

## TRAFFIC LIGHT

Use the traffic light to manage the behaviour. Manually switch to give your class a visual reminder of their behaviour or the task that is expected of them.

## ROLL THE DICE

An easy and fun way to virtually engage students is to roll the dice digitally. Dice are very helpful with math exercises, games and decision making. Choose the number of dice you need and roll!

## CURTAIN, SPOTLIGHT AND ZOOM FUNCTION

These specific tools will help you to draw attention to your lessons in a specific way. Use the curtain to reveal content, use the spotlight to focus on an element in your lesson and use the zoom tool to enlarge and clarify content.

## CALENDAR

Always an example calendar with the correct date at hand!

## MORE TOOLS!

Besides these tools for teachers, Newline interactive displays come with many more pre-installed fantastic tools. Newline Cast for instant screen sharing from any device over any network. Newline Broadcast to share your lesson with more than 200 devices and Newline Display Management to easily manage your interactive displays at distance.
